## SKILLS

- **Languages:** C++, JavaScript, C, Python, Java
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB, PostgreSQL, Figma, Canva, Tableau
- **Soft Skills:** Problem-Solving Skills, Team Work, Quick Lerner

## INTERNSHIP

- **Outlier** November 2024  
*Freelancer*
  - **Project Overview:** Contributed to training AI models for image recognition and coding problem evaluation at Outlier. Assisted in dataset curation, annotation, and preprocessing to enhance model accuracy and performance. Worked on refining AI-generated outputs, ensuring quality improvements, and optimizing learning strategies.**Tech stacks used:** Python, Machine Learning, Data Annotation, Model Evaluation

## PROJECTS

- **TaskTrek – Personal Task Manager:** March 2025  
Created a MERN stack task management web app to help users organize daily tasks. Users can register, log in, create, update, and delete tasks. Implemented user entication and ensured data is stored securely in MongoDB. The app features a clean, responsive UI with filters for task status (pending/completed)  
**Tech:** MongoDB, Express.js, React.js, Node.js, Bootstrap
- **BookBazaar – Online Bookstore Platform:** October 2024  
Developed a simple full-stack bookstore website using the MERN stack. Users can browse available books, add them to a cart, and place orders. Implemented user authentication for login/signup and basic admin access to add/edit books. Designed a clean, responsive UI using React and Bootstrap, while handling backend logic with Node.js and MongoDB.  
**Tech:** MongoDB, Express.js, React.js, Node.js, Bootstrap
- **Suruchi - Restaurant Ordering Website:** August 2024  
Developed a full-stack restaurant website using the MERN stack, allowing users to browse menus, place orders, and make secure payments. Integrated a responsive UI with React and managed backend operations with Node.js and MongoDB. Implemented user authentication and real-time order tracking  
**Tech:** MongoDB, Express.js, React.js, Node.js, Bootstrap
- **GoGrocery - Grocery Store E-Commerce Platform** December 2023  
Built a grocery shopping website using the MERN stack with a responsive UI, secure authentication, and seamless cart management. Developed RESTful APIs for smooth data flow between the frontend and backend.  
**Tech:** MongoDB, Express.js, React.js, Node.js, Bootstrap

## CERTIFICATES

- Development in Kotlin Programming by Alexandru Cristian (Free Code Camp) 13 Hours
- The complete Full Stack Web Development by Dr. Angela Yu (Udemy) 61 Hours

## ACHIEVEMENTS

- **BlockBash Hackathon:** April 2024  
Participated in Blockbash Hackathon which is a blockchain based hackathon.
- **Capture the Flag by Lovely Professional University:** April 2023  
Participated in CTF which was a Cyber Security based Hackathon organized by Technocean.

## EDUCATION

- **Lovely Professional University** Punjab, India  
*Bachelor of Technology - Computer Science and Engineering; CGPA: 6.67* Since November 2022
- **Intermediate** West Bengal, India  
*East West Model School (PCM) (73%)* 2020 - 2022
- **Matriculation** West Bengal, India  
*St. Francis De Sales School (78%)* 2008 - 2020
